

DETOXIFICATION FROM HEAVY METALS AND ENZYMATIC COORDINATION

Recommended doses for integration of the prescribed medical therapy

FIRST 3 DAYS

- 10 ml of **Citozym** in the morning before breakfast

FROM DAY 4 TO DAY 6

- 10 ml of **Citozym** in the morning before breakfast
- 10 ml of **Ergozym** and 2 ml of **Dulcozym** in the morning with breakfast

FROM DAY 7 TO DAY 60

- 20 ml of **Citozym** in a glass of water in the morning before breakfast
- 10 ml of **Ergozym** and 2 ml of **Dulcozym** in the morning with breakfast
- 1 Stick di **Probiotic P-450** at 11am
- 25 ml of **Citozym** and 1 stick of **Propulzym** in a glass of water after dinner

MAINTENANCE

- 10 ml of **Citozym** in the morning before breakfast
- 5 ml of **Ergozym** and 2 ml of **Dulcozym** in the morning with breakfast
- 1 Stick of **Probiotic P-450** at 11am
- 25 ml of **Citozym** and 1 stick of **Propulzym** in a glass of water after dinner.

<p>MONTH 1</p> <p>3 Citozym</p> <p>1 Propulzym</p> <p>1 Ergozym</p> <p>1 Dulcozym</p> <p>1 Probiotic P-450</p>

<p>MONTH 2</p> <p>2 Citozym</p> <p>1 Propulzym</p> <p>1 Ergozym</p> <p>1 Probiotic P-450</p>

<p>MAINTENANCE</p> <p>3 Citozym</p> <p>1 Propulzym</p> <p>1 Ergozym</p> <p>1 Dulcozym</p> <p>1 Probiotic P-450</p>

Note: The biodynamic preparations, the result of the Citozeatec Research, are enzymatic substrates processed according to the human biological cycle. They act on enzymatic alterations that lead to numerous diseases, as discovered by J.B. Sumner in 1920. The cell in fact needs to obtain energy from specific enzymatic substrates and not from other molecules that would modify the genetic information contained in the DNA and subsequently translated into the corresponding proteins.

BIODYNAMIC FOOD SUPPLEMENTS ARE NOT DRUGS

Energy transformation is the primary function of living organisms
